

Tragedy of the Commons — Three Layers

Layer 1: Corporate Competition

Prisoner's Dilemma

"Don't use AI = get eliminated" → All deploy AI → Collectively eliminate customers

Individually rational → Collectively catastrophic

Amplifies

Layer 2: National Arms Race

US vs China vs EU

"Robot tax? AI output tax?" → Capital flees to untaxed nations

Everyone wants to tax, nobody dares go first

Amplifies

Layer 3: Human Destiny

"Stop AI = lose to rivals" → No entity dares slow down → Humanity passive

Feedback loops have no natural brake

Winner = whoever builds "post-employment society" first
